## R Markdown Presentation & Plotly

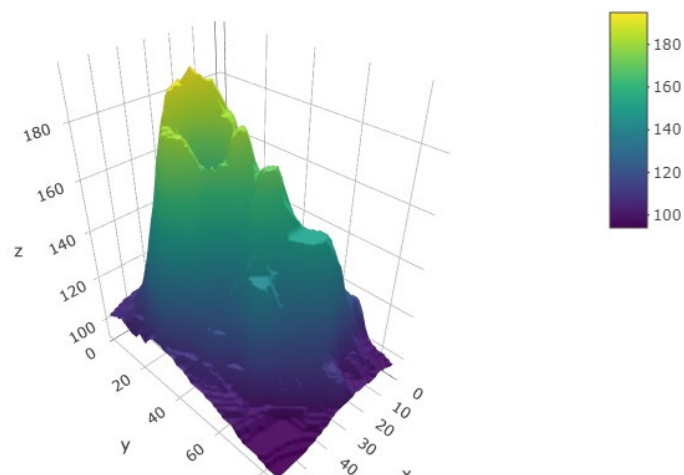

Create a web page presentation using R Markdown that features a plot created with Plotly. Host your webpage on either GitHub Pages, RPubS, or NeoCities. Your webpage must contain the date that you created the document, and it must contain a plot created with Plotly. We would love to see you show off your creativity!

### ##3D Surface Plot

```
library(plotly)

## Loading required package: ggplot2
##
## Attaching package: 'plotly'
## The following object is masked from 'package:ggplot2':
##
##     last_plot
## The following object is masked from 'package:stats':
##
##     filter
## The following object is masked from 'package:graphics':
##
##     layout

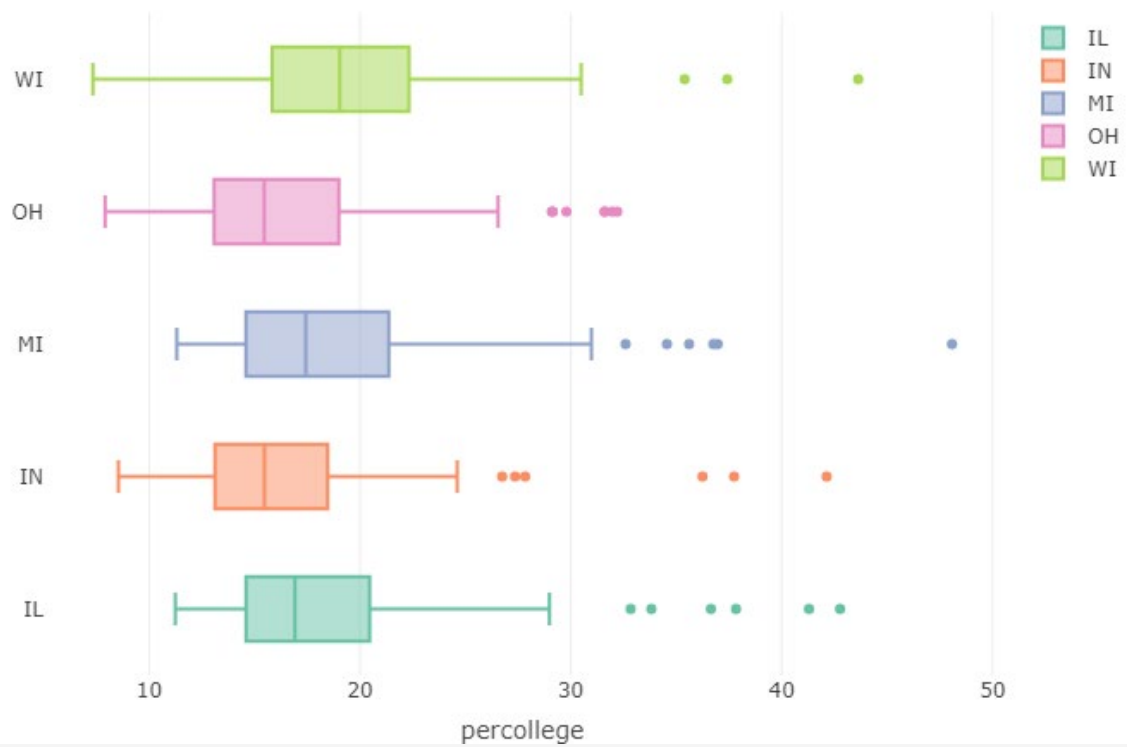

plot_ly(z=volcano, type="surface")
```

## ##Boxplot

```
library(plotly)
```

```
p <- plot_ly(midwest, x = ~percollege, color = ~state, type = "box")
```

p
